

## Adding Interactivity with SMART Notebook (version 10)

- Matching
- Move (the "cover") and Reveal
- Erase and Reveal (the "cover" may be a 'blot')
- Change Text Colour and Reveal
- Fill Background Colour and Reveal
- Screen Shade and/or Spotlight
- Labelling using Annotation
- Labelling using DnD
- Multiple Duplicates (or even Infinte Cloner)
- Using Sound links, and Recording Sound (e.g. 'see and/or hear a question')
- Linking (to other notebook pages, to websites etc.)
- Overlay maps/images and use Object Transparency slider
- Make a Flickbook Animation by Duplicating Pages
- Flash!
- "Magic Box"
- Toolkits
- Drag selected text from a sentence (e.g. to create a Word Bank)
- Create a Cloze (using Text Colour)
- Re-arrange sentences in correct sequence.
- Duplicate a page to have a 'Before' and 'After'
- Use the Camera tool to create a jigsaw from an image
- Use the Page Recorder to play back the Process of a piece of work
